Chairman's Message

NARESH CHAWLA
Chairman & Managing Director

“

The very foundation of this organization manifested from the selection of our name of Kaizen. As a corporation, when we began our journey, the sole belief of our collective self was to commit towards continuous improvement and customer satisfaction. Today after more than a decade, it is very satisfying to know that the principals we started with have paved a fruitful path not only for this organization but for our stakeholders & our employees. This would not have been possible without our customers and our dedicated employees who have contributed immensely in our incredible journey this far.

With the progress of globalization, dynamic paradigm shifts are currently underway in many aspects of corporate society, we are proceeding at a faster pace and on a larger scale than ever before, and we recognize that turbulent times persist.

Kaizen Group will accommodate new needs to be generated by such social economic changes, through innovation and combination of our technology, our capabilities and our wide variety of products.

I am grateful for our customers, stakeholders & employees for all their support and services all these years. I believe we have only just started with many miles to go, grow & flourish and we look forward to working together for an even brighter future.

”

The journey to excellence began in the year 1993 when Mr. Naresh Chawla, a technocrat incorporated our sister concern Kaizen Industrial Services with the sole aim to serve auto industry in the field of Advanced Welding. Today Kaizen Industrial Services has a strength of 2700 employees and is a trusted skilled human resource provider to the leading Auto OEM's & component manufacturers in India.

Strong client base and reputed goodwill earned by Kaizen Industrial Services encouraged us to incorporate **KAIZEN METAL FORMING PVT LTD** in the year 2003.

Today **Kaizen Metal Forming** is known as a manufacturer of high quality Automotive and Non-Automotive Sheet Metal Stamping Parts, Welded Sub-Assemblies, Sheet Metal Skin Panels for various OEMs in Automobile, Agriculture and Telecom Industry. We can support with full solution on Welded & Formed Stamping Assemblies.

We have 4 state-of-the-art production facilities with Automated machinery & Robotic Lines strategically located across North India, manufacturing high quality products at competitive prices. We also have expertise in designing and development of Press Tools, Dies, Checking Gauges and Welding Fixtures.

Recently, we have introduced Sheet Metal Cases & Boxes for Domestic & Export Packaging, which is a better option than conventional wood packaging. This range of eco-friendly cases is ideal for transporting various goods safely.

We can design, manufacture and supply Steel Boxes and Cases as per customer's product requirements.

Kaizen Metal Forming is reported as "Emerging MSME of India" by NHK World News Channel of Japan.

in-house facilities

- Power Presses up to 250 Tons
- Tool Room Machines
- CNC Shearing Machines
- CNC Turret Punching Machines
- CNC Hydraulic Press Brakes
- Spot Welding Machines
- Projection Welding Machines
- Portable Spot Welding IT Guns
- Robotic Spot Welding
- Seam Welding Machines
- MIG - MAG Welding Machines
- Rolling Machine
- Profile Cutting Machine
- Band Saw Machine
- QC Equipment's
- Siemen's NX 11 'Design Software'

systems & certifications

products & services

Chassis and other welded & formed assemblies for Electric Vehicles and Three Wheeler

Sheet Metal Components for Automobile & Farms Equipments

Welded Sub-Assemblies for Automobile & Farm Equipments

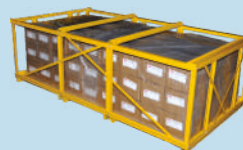

Tubular Components for Bikes & Scooters

Sheet Metal Skin Panels for Combine Harvesters

Press Tools, Dies, Checking Gauges and Welding Jigs & Fixtures

Steel Boxes & Cases for Domestic and Export Packaging

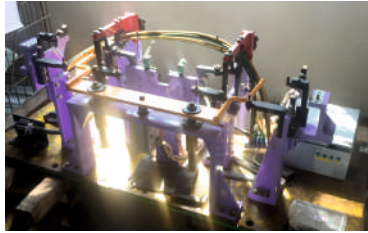

Complex Fabricated Metal Components and Assemblies

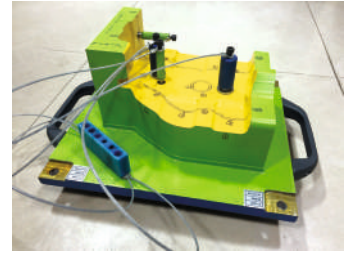

products & services

Tools & Dies

Welding Jigs & Fixtures

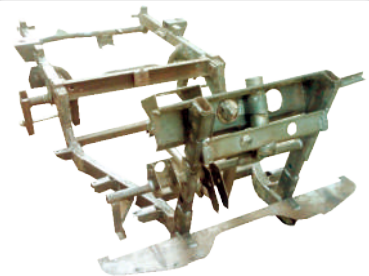

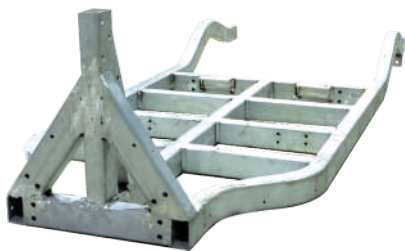

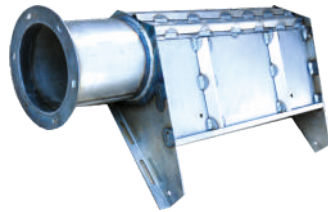

Checking Gauges

robotic welding of sheet metal welded sub-assemblies

KAIZEN

stamped & welded assemblies

products & services

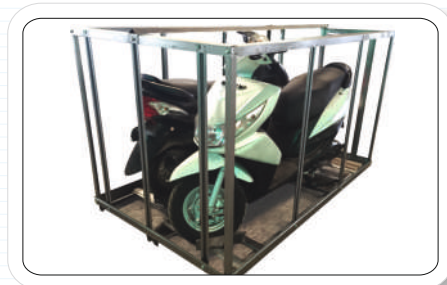

eco-friendly safe transportation

To curtail and support minimization of Carbon Footprint, we have introduced Sheet Metal Cases and Boxes for Domestic & Export packaging against conventional wood packaging. This range of Eco-Friendly and Cost-Effective cases is ideal for transporting various goods safely.

We have in-house design, customization & manufacturing capabilities that have inspired many OEM's to successfully shift from wooden to our steel packaging solution at competitive prices.

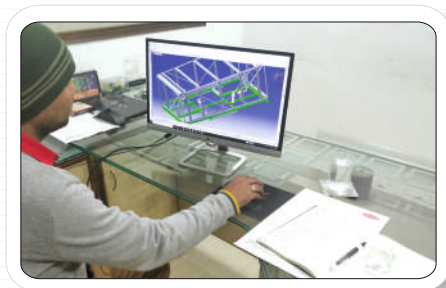

steel pallet for car body

steel bone cages for two bikes

steel bone cages for single bike

In-house design capabilities

steel bone cages for machines

KAIZEN

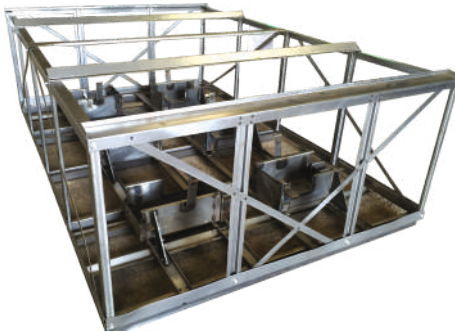

steel boxes, cases & cages
for domestic & export packaging

closed type box for air freight

open type box for sea freight

steel bone case for engines

powder coated steel packaging boxes
